Field Technician *Advanced Testing* Campbell Hall, NY

Overview: Advance Testing Company, Inc. is seeking Field Technician for Campbell Hall, NY 10196

Advance Testing Company, an established New York-based construction materials testing and inspection firm, has opportunities available for individuals to perform testing and inspection of construction materials such as soils, aggregates, concrete, reinforcing steel and asphalt. Advance Testing trains and certifies employees within these disciplines through locally and nationally recognized programs.

New employees participate in training during the initial period of employment. Once trained and certified, the new employees are considered full-fledged engineering technicians.

Applicants must be able to obtain any security clearances and background confirmation required by clients for sensitive projects and locations. In addition to potential field assignments, Advance Testing operates a state-of-the-art, accredited laboratory facility that employees may be trained to perform testing services in.

Schedule: Work hours vary, but may include day, night, and weekend shifts.

Essential Duties and Responsibilities include the following:

- Observes work in progress to ensure that procedures followed and materials used conform to specifications.
- Perform standard testing on materials.
- Prepare samples of materials for laboratory testing.
- Examine workmanship of installations for conformity to specifications.
- Maintains daily log of construction and inspection activities and completes reports daily.
- Prepare sketches of construction installations that correlate with testing and inspection sites.

Requirements:

Lifting of up to 75 pounds. Walking/Working on uneven surfaces. Valid driver's license and a working personal vehicle are required.
